Wittman's Orchids in Iris

1435 VAN HOUTEN AVENUE

OFF ROUTE #6

CLIFTON, NEW JERSEY

Dear Customers:

It gives me great pleasure to offer you some very interesting news!

For the benefit and convenience of our Iris-loving customers, we have planted an Iris Garden of 70,000 or more Bearded Iris. Our display beds are six-feet wide, and if they were planted "end to end", would measure a mile in length.

We have also planted a Display Garden of Hemerocallis or the better known Daylilies. This garden, though not quite complete, contains several hundred varieties of Daylilies.

Together with these, we have Kampferi, Siberian and Spurias Iris, which we plan to arrange in a Display Garden in the very near future.

Our Bearded Iris Display will be in flower from about
May 15th to June 15th

Daylilies from June until September

Siberian, Spurias and Kaempferi Iris — the months of
June and July — Open Sundays and Week Days

We hope to continue to improve our Display Gardens year after year by adding the newer and better varieties.

We cordially invite you and your friends to visit our display of "Orchids in Iris" -- to share the breath-taking array of colors and also to take advantage, if you care to, of selecting Iris while they are in bloom.

To our many customers, may I say "thank you" for your past orders and many letters of appreciation.

Sincerely yours

Emil A. Wittman

(An extra 5% discount allowed for orders of \$10.00 or more;
10% discount \$25.00 or more.)

H A R D Y P H L O X **C L O S E O U T**

Extra strong plants of only choice varieties, 12 assorted strong plants for **\$2.50**

Every Item Priced To Save You Money

ACTION FRONT (P. 1942) E.M. 36 in. A brilliant copper red, distinct and fine. Per R. 88, 1945.	1.50
ADMIRATION '46 A smooth medium yellow self, outstanding in quality and substance. Late, 40 inches. H. M. '47	7.50
AKBAR 40 in. Pansy violet. Medal winner.20
ALADDIN'S WISH (Murawaska-Sch. 1945) M. 36 in. A distinct novelty. An unusual marking of cream lines on blue — a striate rather than a plicata pattern. Large, well formed flowers.	4.00
ALICE HARDING 40 in M. A fine primrose yellow self. Well branched and a free bloomer.60
ALLURE 40 in. An exquisite soft pink and soft yellow blend.25
AL-LU-WE 40 in. Brilliant red-toned falls shading to a bronze border to match the standards.35
ALTA CALIFORNIA 48 in. Clear deep yellow with falls faintly bronzed. Perfect form and texture.25
AMBASSADEUR 42 in. Winner of the American Iris Society Popularity Contest several years ago and still popular. A deep rich blend and violet	.25
AMBERA 36 in. Very Early. Exquisitely fragrant. A huge superb bright canary yellow.20
AMBROSIA Fine satiny pink.35
AMMON 46 in. Very early. The flowers are large, of perfect form and a lovely sky-blue color.20
AMRITA 36 in. A delightful blue bi-color.25
AMITOLA 30 in. Lovely soft tourmaline-pink blend.35
ANGELUS (Egelberg 1937) ML 34 in. An older but very fine pink. Valuable in breeding. HM 1938. Per R. 90, 1939.40
ANNDELIA 32 in. "Plicata" and a real beauty. S. lilac, beautifully ruffled; F-white, with a feather-stitch edging of bright rose-purple.20
ANDANTE 36 in. Lovely rich red-purple tone. It is like a piece of rich plush. You'll like it.25
ANNE MARIE CAYEUX 36 in. A magnificent French introduction with standards pinkish lilac, flushed grey; F-metalic blue over grey.30
APACHE 24 in. Fragrant flame red.30
ARTIC (Kleinsorge 1940) Large flowers of a glistening warm white, with a decided gold throat. 40 in.85
ARETHUSA M. Rose. A strong toned rose with a tendency to fade in extremely hot sun.60
AT DAWNING (Kirkland 1935) E. 40 in. Large arbutus pink bi-color standards have a pearly suffusion while the falls are rose artfully lit by a glowing yellow infusion.35
ATTYE EUGENIA 36 in. Very large fragrant flowers of soft yellow25

Every Item Priced To Save You Money

AUBADE 31 in. Large luminous flowers of perfect form. Soft yellow, flushed soft rose.20
AUREX 38 in. Fragrant, "variegata", clear yellow standards and velvety blackish-crimson-purple falls25
AZTEC COPPER (Kleinsorge 1939) A copperish colored flower with subtle tones of violet and bronze blended in lovely harmony. Mid-season 38 in.	.85
AZURE ACE 50 in. Superb azure blue	1.00
AZURE BLUE Lovely pale lilac blue variety.25
BALLERINE 48 in. Very fragrant, late. Light blue gigantic flowers of fine form and exquisite coloring.25
BALMUNG One of the best yellow "Plicatas" with clean markings of brown	1.00
BEAU SABREUR 34 in. Early "Variegata". Should be in every collection. S-amber; F-Vandyk red, very velvety.25
BEOTIE 48 in. Elephant grey, flushed taupe.30
BEOWULF 32 in. E. True rich maroon.25
BLACK WINGS 40 in. Unsurpassed lustrous near black.30
BLUE BANNER Glorious blue bi-color.25
BLUE DANUBE 36 in. Best brilliant pure deep rich blue.50
BLUE MONARCH 40 in. Gigantic soft blue. 15 flowers to a stem .Perfect.25
BLUE SHIMMER (J. Sass 1943). Charming and original is this lovely plicata with its waxy white background heavily stippled with clear blue. The blooms are of splendid form and substance. Tall and beautifully branched. We consider this one of the most outstanding Iris of the last few seasons. Mid-season. 39 in.	2.50
BLUE TRIUMPH 42 in. A masterpiece in soft blue.25
BLUE VALLEY 40 in. H. M. Smith '47 A large, beautifully shaped medium blue self with flaring falls more closely approaching true blue than any Iris yet originated. When well open, the flowers become delightfully ruffled and acquire a metallic sheen that sparkles all over. A vigorous grower and fast increaser. A glorious Iris for your collection.	\$15.00
BOMBAY (Hamilton 1943) M. 36 in. A fitting brother to City of Lincoln. Bright and clear yellow standards and bright coppery maroon falls. Since good variegatas are few, this free flowering plant is recommended.65
BONSOR (Con. 1938). A silky deep velvety blue of exceptionally smooth finish and rich color. The best of the deep blues. 38 in.65
BROWNGREY BLEND M. 44 in. The large flowers of brown and grey blend have falls faintly tinted with violet.25

Every Item Priced To Save You Money

BROWN THRASHER (Kirkland, 1941) Here is an Iris with true brown color, not dull but actually brilliant because of the fiery beards and glowing central area. It has a lustrous sheen, not velvety. Tall stems bear several well-spaced blossoms of large size. Far more alive and colorful than Copper Lustre and altogether different than Tobacco Road. HM A.I.S., 1940, AM. 1943.	2.00
BUFFAWN (Andrews, 1940) M. 34 in. This is a lovely Iris of light tan color. The standards are frilled and the falls have gold veining. The beard is brilliant tangerine color.65
CALIFORNIA GOLD 36 in. The color is a rich deep golden yellow. Strong grower.25
CALIFORNIA PEACH (Salbach 1941) Peach-pink, salmon and lavender comprise the ensemble of this appealing Iris. The blooms are large and firm and are carried on tall-wide-branched stalks. Early. 38 in.	1.00
CAMELLIARD Late, huge soft yellow overlaid with wine.20
CAMEO Exquisite blend of apricot and cream, falls flushed with cameo pink.20
CARFAX 42 in. Richest velvety red-purple. Silver Medal.20
CAROLINE BURR (K Smith 1940 M. 40 in. Rich cream, or old ivory flowers with slight green shadow overlay and a frosty sheen.	1.25
CASTOR 36 in. White peppered violet. Silver Medal.20
CHEERIO 40 in A red-toned bi-color with rose flushed standards and ruby red falls.33
CHINA BOY 36 in. Huge flowers in the deep rich colors of a Persian rug, many colors being blended together in delightfull harmony	1.00
CHINA LANTERN 40 in. Huge flowers. S.-old gold; F-Bordeaux.25
CHINA MAID (Milliken, 1936) AM. A.I.S. 1939; HM, A.I.S. 1938. An outstanding soft lilac pink blended golden bronze. Large with good form. Deeper in color than Angelus and taller. 48 in.65
CHIPPEWA (Salbach 1943) Plicata. Brown over shades of yellow. S. lightly marked at the haft. F. heavily suffused and dotted. 32 in.	1.00
CHIVALRY (J. Wills 1944) M. An impressive flower that is deeper in color than Great Lakes, larger in size and with exceptionally heavy substance. The domed standards are large and full. The flaring falls are broad hafted, firm and strong. The inconspicuous beard is orange changing to blue at the tip. Both standards and falls are ruffled at the edge and this adds greatly to the beauty of the flower. The placement of the blooms on the well-branched stalk is excellent and the growth is vigorous. A very fine real blue Iris of great garden value. H.M., A.I.S. 1944. A.M., A.I.S. 1946. Per R. 90 1945. 36 in.	10.00
CHRISTABEL (Lapham 1930) A "red" Iris with a coppery tone that gives it an unusually high note of brilliance. 38 in. stalks.40
CITY OF LINCOLN (H. Sass 1936) Bi-color. Easily the most brilliant of the variegatas. Bright golden S. and rich, bright red F. in bold flashing contrasts of color.50

Every Item Priced To Save You Money

CLARET VELVET 30 in. Perfect deep velvety wine red self.85
CLARIBEL 45 in. Giant white, with soft blue edging.35
COPPER PINK (Kellogg 1941) A beautiful, soft pink flushed with sparkling copper. The style-arms are blue, the beard orange-brown. Nicely finished flowers and an excellent all-around Iris.	1.00
COPPER ROSE (P. Cook 1941) A lovely, smooth blend of rose, tan and copper with a flush of golden yellow at the center. Large, broad-petaled flower. 38 in.	1.50
CORONATION 40 in. A fine, large, rich deep golden-yellow.20
CORONET A honey yellow with a delicate overlay of rose beige. Late. 30 in.	.30
CREOLE BELLE 36 in. Rich Bishops purple; satiny finish.30
CROWN OF GOLD 36 in. E., large deep yellow self. Fine form.	1.25
CROWN PRINCE 36 in. S-pure gold; F-rich velvety brownish red.30
CRYSTAL BEAUTY 50 in. Very early and very tall. A gorgeous, pure, clear snow white of huge size. Flowers of perfect shape and freely produced	.30
CYDALISE 38 in. Yellow, with border etched chocolate brown.25
CYRUS THE GREAT 42 in. Very early. Very large flowers perfectly formed are of deep tone with a touch of violet.40
DARK HORSE 30 in. A bright red-violet tone, the standards by the color chart being bright glowing Mars Violet, and the falls deep Violet Carmine, overlaid pure velvety black. Very fine.60
DAUNTLESS Introduced some years ago and still one of the best red-toned Iris. The color is a shade lighter than Bordeaux, but redder. Fine large blooms, good stems and a good grower. Winner of Dykes Medal. Mid-season. 40 in.25
DAYBREAK (Kleinsorge 1941) A huge golden pink with slight copper undertones. The ruffled blooms are well formed with closed standards and semi-flaring falls. This flower tied with Ola Kala for the 1946 Dykes Medal. Mid-season. 36 in.	2.00
DAZZLER 32 in. A gorgeous free flowering rose toned variety.20
DEBUT (Milliken) A large firm spreading flower (eight inches) of glistening translucent old gold blended on the falls with a light touch of lavender which is most apparent down the middle of the falls. A bright golden beard lights up the center of the flower. A fascinating variety 36 in.	3.50
DEEP VELVET 38 in. Large rich blue-black with red undertone.	1.00
DENEBOLA A very rich brown.65
DEPUTE NOMBLOT 48 in. Large perfectly formed flowers with copper red standards and claret crimson falls.25
DEREK MEYER 40 in. E. Rich velvety pansy violet. Medal Winner.	1.00
DESERET 40 in. Lovely deep yellow veined hydrangea red.40
DIRECTEUR PINELLE 42 in. Very fragrant. Clear, rich, copper-wine-red; F-wide, flaring, deep velvety blackish garnet-red.30

Every Item Priced To Save You Money

DISPLAY (Grant 1942) ML, 35 in. A brilliant brown red — one of the finest we have ever grown for all around garden excellence. HM 1942. Per R. 88.25
DOGROSE (Insole 1930) Delicate orchid-pink Iris of medium size blooms. 40 in.30
DON JUAN 40 in. Gigantic rich red-toned beauty.30
DORE 40 in. S-lemon yellow; F-ivory. Huge flowers.35
DREAM A very delicate soft pink, rather small flowers. A dainty variety.30
DYMIA 38 in. Gorgeous dark plum, almost black.25
E. B. WILLIAMSON (Cook, 1937). HM, A.I.S. 1938. A glowing coppery red of medium shade; nearly a self and a distinct color effect. 36 in.35
ECLADOR 42 in. Gorgeous huge canary yellow. Dykes Medal.30
EDWARD LAPHAM (Lapham, 1942) HM, A.I.S. 1940. A very fine new red Iris originated by the same hybridizer who gave us Christabel and Red Gleam. A very smooth, rich glossy crimson with a clean solid brown-toned haft devoid of reticulation. Medium height.35
ELKHART (Lap. 1936). Deep chestnut red, in some lights appears to be more brown. Very vivid orange beard. 36 in.30
ELEANOR BLUE 38 in. A lovely flower of soft true blue. One of the best blues.75
ELLA WINCHESTER 40 in. A large, superb flower of glowing mahogany-red, with thick velvety petals.40
ELMOHR (Loomis, 1942). AM, A.I.S., 1944. Dykes Medal, A.I.S. 1945. A beautiful seedling of Wm. Mohr that is hardy in any climate. A lively shade of reddish mulberry. Large flowers of heavy texture and excellent form. Very fine. 3 Feet.	1.00
ELSA SASS (H. P. Sass, 1939). AM, A.I.S. 1941; HM, A.I.S. 1939. A distinct yellow note in Iris — a clear sulphur with greenish cast in its depth and a near white effusion on the haft. The blossoms are large size, rounded in form. 36 in.60
EROS (Mead-Riedel, 1934). HM, A.I.S. 1934. A lovely iridescent salmon-pink with silky texture. Free flowering. 40 in.30
ETHELWYNN DUBUAR. (Lap. 1933). Large flowered orchid pink self with orange beard.30
ETHELYN KLEITZ (Gage, 1940). HM A.I.S., 1938. A lovely new pink-toned red of fine form and splendid substance. S. light corinthian red; F. hydrangea red; deep yellow bear. 35 in.	1.50
EUPHONY 36 in. One of the best copper tones, nicely ruffled.25
EVELYN BENSON 39 in. A gorgeous Iris of perfect form in a uniform carmine self color.20
EXCLUSIVE 39 in. A lovely new blue tone, being a soft-powder blue.35

Every Item Priced To Save You Money

FAIR ELAINE (Mitchell 1938). M. 40 in. Another older Iris that stands the test of time. Pale yellow standards with golden yellow falls. It is as clean and fresh as the morning. HM 1939, AM 1940. Per R. 89, 1940.	.65
FALL DAYS 43 inches HM, A.I.S., Smith 1947. A reddish-copper bi-color. The standards are rose and gold, really a rosy bronze and its iridescence gives a metallic sheen. The falls are rose brown with chestnut brown base with a velvet effect. This beautiful Iris appears to be bright autumn red in the garden and its color fades very little. An excellent variety blooming in mid-season.	15.00
FASCINATION (Cay. 1927). Large flower of deep purplish pink. Tall.40
FIESTA (White, 1936). 36 in. HM, A.I.S., 1936. Really a cause for celebration when this gay flower opens with sparkling copper standards and apricot orange falls.	1.50
FORTUNE (Klein, 1941) M. 32 in. Old gold shadowed with rustic red brings out the rich Florentine coloring in this Iris, of large size and broadly spreading form.85
FRANK ADAMS (Lapham, 1937). A tall and very well-proportioned large Iris with rosy tan standards flushed yellow and rosy red falls. Flowers are unusually large in size. HM, A.I.S., 1938; AM 1940.40
FRECKLES This Iris, as its name indicates, is a yellow "Plicata" with chocolate brown markings.65
FRIEDA MOHR 44 in. Tall and stately with perfectly formed flowers of orchid-pink. Delightfully fragrant and extra large in size.35
FROSTY BLUE (Whiting-Kellogg 1941). M. 38 in. A clear light blue with a frosty sheen. The large flowers are wide and full, the branching especially good. The strong plants increase far above the average, but still we never have enough plants to fill our orders. R. 87, 1943.	3.00
GARDEN FLAME (H. Sass. 1941). A very deep rose mahogany, called by some judges rose-red, but it is nearer garnet with a deep rose and brown area about the center. It has no haft markings, making it one of the richest and handsomest of all dark Iris. Large, with very broad falls, and it blooms quite late. HM, A.I.S. 1940; AM, 1943.	1.50
GARDEN MAGIC (Grinter, 1936). Large and very velvety deep red self, this Iris increases slowly and the demand always exhausts the supply. HM, A.I.S., 1937.	1.00
GERMMAINE PERTHUIS A very nice light purple with deep purple falls.20
GIANT BALDWIN 42 in. Giant flowers of bright blue. Overshadows all others in its class. 8 to 16 huge flowers to a single stalk.60
GLEAM 42 in. An extra fine flower of perfect form and uniform soft sky-blue throughout.60
GLENN-ELLEN (Connell 1939). An attractive new luminous golden tan. Mid-season. 36 in.85
GLORIOLE 42 in. Very fragrant, large flowers. S-domed, beautifully ruffled, very soft lobelia-violet, so soft as to be almost white, but exquisitely dainty. F-same color with an almost imperceptible soft greenish flush.	.40

Every Item Priced To Save You Money

GLOWPORT (DeForest 1939). Lovely glowing wine red with bronze beard. Blooms again in the fall. Mid-season 34 in.40
GOLDEN AMBER (Sturtevant). Clear golden amber of medium size. Good substance. Mid-season 30 in.50
GOLDEN BEAR (Mitchell). Clear rich golden yellow that does not fade. Mid- season 36 in.40
GOLDEN BOW 30 in. Early flowering, deep yellow. A large flower of fine form.25
GOLDEN EAGLE (Hall 1942). Very large clear yellow self with smooth satiny finish. Blooms well placed on perfectly branched 36 in. stems. Both standards and falls slightly ruffled. Mid-season.	1.25
GOLDEN FLEECE (Jacob Sass 1940). "One of the richest, brightest and finest of all Iris." Standards are clear sulphur yellow to lemon, falls creamy white with edging of gold. Very clean and pure. Blooms are of good size. Good stems, good growing habits. Mid-season. 36 in.	1.75
GOLDEN GLOW (Glutzbeck 1939). Brilliant clear, pure gold, free flowering Iris.40
GOLDEN HIND 36 in. Rich, deep buttercup yellow with a vivid orange-red beard. Winner of a silver medal and the Dykes.60
GOLDEN MAGIC A pure soft yellow.20
GOLDEN MAJESTY 38 in. This is one of the very fines deep golden yellows. Large flowers with closed domed standards, broad falls and a smooth, glistening finish that does not fade. There is a purity and brilliance about it that attracts immediate attention. HM by A.I.S. 1939. AM 1940.	.60
GOLDEN MELODY 36 in (E. Wayman 1944) 34 in. Very large clear deep yellow. Excellent grower.	1.25
GOLDEN TREASURE (Schreiner, 1936). Solid deep cream, but with an out- pouring of rich, golden orange all about the central portion of the flower. Will stand out in a planting of hundreds of varieties. HM, A.I.S. 1936; AM, 1948.40
G. P. BAKER 48 in Dykes Medal and Silver Medal winner. Masterpiece in yellow. S-rich primrose; F-canary.20
GRACE MOHR (Jory 1935) Oncobred. Very large flower of light lilac veined a darker lilac. Easy to grow. 40 in.65
GRACE WAYMAN Large rich pansy-violet.25
GRAND CANYON (Klein 1941) A mixture of gold, coppers and blackish reds combined into a dark, rich medley of colors that is most interesting and distinctly different. 36 in. stalks.85
GREAT LAKES (Cousins 1938). This beautiful medium blue self won the Dykes Medal for 1942 because of its lovely flower and its dependable plant habits. 38 in.	1.00
GUDRUN (Dykes 1930) English Dykes Medal winner of 1931. Each year this huge Iris of medium height gains in its popularity. Color, a warm lustrous white. 33 in.40

Every Item Priced To Save You Money

GUYASUTA 32 in. Early. The flowers are large, perfectly formed of heavy substance, uniform color throughout and it is a prodigious bloomer.30
HAPPY DAYS (Mitchell, 1937). VE. 40 in. AM 1937. An extra large medium yellow Iris. Free blooming and slightly fragrant.30
HELEN M. REIDEL 40 in. New strikingly brilliant red bi-color.	1.00
HELIOS 44 in. Sensational, soft lemon-yellow. Enormous size.60
IDANHA (Kleinsorge, 1942). A bi-color, in a distinctly different pattern. The S. an apricot-yellow, F. a pink blend. The garden effect a pink-tan combination. Large.	1.00
INDIAN CHIEF 40 in. Standards are violet red, falls velvety reddish purple and down falling. The large flowers are freely produced.30
INDIAN HILLS 38 in. Rich true-purple Iris, has large oval flowers of good substance and finish, and is a strong grower and free multiplier.35
JASPER AGATE (Williams 1943). A new and rich shade of gold-copper-red, with an underlying copper-pink tone of smooth finish with no veining. 34 in.	3.00
JASMANIA 42 in. Large flowers; in the color of a ripe banana.30
JEAN CAYEUX 36 in. Pleasing tones of bronze-brown and light buff. The standards are open and the falls are semiflaring. It has a long-flowering season.25
JEAN LAFITTE Lovely Glowing copper rose.35
JEB STUART 40 in. Domed standards of soft buff and extremely velvety falls of solid deep, dark brownish red.50
JERRY 32 in. If you are looking for a dark red-blend Iris, here is a nice one at a moderate price.30
JOYCETTE 40 in. A deep mulberry red self, that has won an award of merit of A.I.S.50
JUNALUSKA 38 in. A velvety carmine red with an infusion of gold and copper at the throat. It is tall, well-branched and blooms early.30
KATY. A Kenneth Smith Introduction. A lovely cream with soft golden orange beard. Blooms over possibly the longest season of any variety. Height 40 in.	3.00
KING MIDAS 28 in. Early. A golden-buff and garnet-brown bi-color blend. Very beautiful.30
KING JUBA 40 in. "Variegata". S- old-gold; F-dahlia carmine A brilliant and effective subject.25
KING TUT 34 in. Brilliant red-toned Iris. Hard to beat in its class.35
LADY MOHR (Salb., 1944). E. 36 in. HM, A.I.S. 1944. A most aristocratic Iris—beautifully dressed in a distinctive two-tone combination of gleaming oyster white standards and frosted, heavily veined falls of vivid chartreuse yellow.	5.00

Every Item Priced To Save You Money

LADY PARAMOUNT (White, 1934). HM, A.I.S., 1932. A large primrose yellow with broad full segments making an excellently formed flower. 38 in.30
LADY PHYLLIS 36 in. Fragrant. A glorious pure, sky-blue Iris, of uniform color throughout. Large flowers of perfect form and delightfully scented.30
LANCASTER (Cook, 1940). M. 36 in. A strong rosy glow emanated from this tall and distinguished Iris, for its mass of ruffled blossoms and coloring cannot be excelled.85
LATE SUN (DeForest 1940). This attractive deep rich yellow with red-gold overlay is becoming increasingly popular. The flowers are huge with thick, heavy petals.85
LIBERTY BELL 30 in White with red-toned feather-stitched edging.75
LIGHTHOUSE (Salbach 1936). An outstanding Iris for any garden. Standards old rose, with falls a coppery-rose-red. Blooms held on well-branched, tall stems. Late. 36 in.65
LORD DONGAN (K. Smith 1940) M. 37 in. A very clean and lovely violet-bi-color. The standards are Chinese violet, the falls deep, velvety Corinthian purple. The hafts are smooth and the yellow beard accents the contrast of the coloring. HM 1940. Per R. 88, 1932.	2.00
LOS ANGELES One of the best white plicatas. Large white blooms of fine form and good substance, faintly edged blue with blue style arms. Tall and widely branched. Early 40 in.35
LOUVOIS (Cayeux 1936) A two-tone brown. Standards light chocolate and the falls dark chocolate to maroon, with an edging similar to the color of the standards. Mid-season. 36 in.60
LT. MICHAUD A very fine, large medium blue self.20
MABEL TAFT 42 in. A rich blue bi-color with large flowers of heavy plush-like texture and perfect form.30
MAGIC CARPET (Schreiner, 1943). ML. 33 in. An echo from the Arabian Nights, this fabulous plicata has standards of buff subtly flecked rose rioting on a deep creamy gold background.	3.50
MAJENICA (Cook, 1941). Distinct new pinkish blend with a tinge of salmon. This is a pleasing flower in every way with wide petaled standards and falls; full, rounded and huge in size. Height 36 in. HM. A.I.S. 1943.	1.50
MANDALAY (Hall, 1943). A smooth reddish-rose self, entirely and evenly blended with copper. This is a new and attractive color, not matched by any Iris we know. Widely spreading falls, domed standards. HM, A.I.S., 1943.	1.75
M. A. PORTER 36 in. An exceedingly rich deep violet, with velvety falls and deep orange beard.20
MARIE ANTOINETTE (K. Smith 47). A beautiful bi-color, soft lavender standards, falls deep velvety blue-purple, edged in soft lavender. Marie Antoinette is one of the most admired Iris in our planting. Early to mid-season. 42 in.	5.00

Every Item Priced To Save You Money

MARION VAUGHN (Smith 1947). 36 in. This lovely flower has standards of soft lemon ice, frosted. The falls of the same color have a white flush below the beard. Both standards and falls are delightfully fluted. The midrib is slightly cast with green, thus accentuating the attractiveness of the fresh, cool, crisp medium-sized flowers. A breath taking variety in a clump. Mid-season.	15.00
MARY GEDDES 36 in. Lovely soft pink tones, overlaid Pomeranian red. Eight to ten flowers to a nicely branched stalk.20
MARY GIBSON 42 in. Early. A handsome soft rosy-bronze blend, with a yellow throat and rich golden beard.30
MARY SENNI Huge mauve blend.25
MATA HARI An intense blue-purplish Iris.85
MATTERHORN (J. Sass 1938). It's like a piece of soft white satin. All agree it's one of the best whites.	1.00
MATULA (H. Sass 1939). M. 35 in. One of the most unusual blends. A warm medley of rose, rich orange, crimson and buff. Large flowers are airily waved and crimped; superb substance and a rugged plant.40
MAY DAY (Hall, 1939). Apricot-salmon, a luscious color, with an overlay of copper. Large flowers with pointed standards. Very tall stems, well branched make it a colorful garden subject. HM, A.I.S., 1939.40
MELANIE (Hill, 1941). This splendid new light pink comes to us as the finest introduction of H. M. Hill. Color is orchid-pink, close to true pink, and there are as many as five open flowers at once on 40-inch stems. HM, A.I.S., 1941.	1.00
MELDORIC 50 in. Early. A blue-black of colossal size, perfect form and heavy substance.35
MELITZA (Nesmith, 1940). Pale ivory-flesh, particularly effective in dull weather. Much of the unusual color effect of this Iris is derived from the fiery tangerine-orange beard. No Iris that we have ever grown has increased so rapidly and it is at its best on a two-year clump. Height 36 to 40 in. 16 HM A.I.S., 1940; AM, 1942.85
MESTOR Rich deep purple, intermediate variety.30
MEXICO (Kleinsorge 1945) S. buff-gold. F a velvety brown-red blended with, and bordered golden-buc. Large flowers. 38 in. Late.	2.50
MICHELANGELO (Weed, 1936). Tall dove grey with brown veining at the haft. 40 in.35
MIDWEST GEM (H. Sass 1937). Beautiful blend of peachy-apricot flushed pink. Large ruffled flowers that everyone goes back to see over again. 34 in.40
MIDGARD 36 in. Popular pink and yellow blend.40
MILDRED PRESBY 36 in. A strikingly bi-color, having creamy-white standards and deep pansy-violet falls. It is not new, but is a very pretty Iris.30

Every Item Priced To Save You Money

MINNIE COLQUITT (H. Sass 1942). Plicata. Very large, slightly ruffled, clean white flowers, beautifully stitched with a sharply contrasting reddish-wine-purple. A good grower and well branched. 35 in.250
MINISTRE FERNAND DAVID 36 in. Gigantic dahlia-carmine. Prize winner ..	.30
MING YELLOW (Glutzbeck 1938). A grand, large flowered medium-yellow self with smooth coloring, clean haft and a bright yellow beard. 38 in.	.65
MISS CALIFORNIA (Salb. 1936). Our visitors call it "That lovely orchid-pink". A vigorous grower, it opens its big flowers on stalks that are nearly 4 ft. Tall.40
MISSOURI (Grinter 1944). The famous clear, deep blue with the flaring falls and enamel-like finish. Dykes Medal for 1936. 36 in.65
MODISTE (Hall, 1938). Pale mauve, on the pinkish side of lavender. A huge flower with broad hafts, full rounded shape and ideal growing habits. Beard is lemon on white ground. 36. to 40 in. in height.50
MODOC 36 in. Early. A very handsome deep velvety black-purple, almost black in effect.20
MOHRSON (White, 1935). Deep violet-colored seedling of Wm. Mohr, with darker veins and rich bronzy gold beard.75
MOON MAGIC 40 in. Early. Fragrant. A fine soft yellow, of perfect form, with flaring falls six in. across.20
MOONLIT SEA (J. Sass 1942). A most unusual flower. The white ground color is so heavily covered and striated with indo-blue that little white is indicated, while an empire-yellow haft adds to the confusion. The garden effect is dark blue and yellow. A truly beautiful and good all-round plant. 35 in.	2.00
MORNING SPLENDOUR 36 in. Fragrant. The large flowers are of a rich dark reddish tone, perfectly formed of heavy substance, delightfully fragrant.	.30
MOROCCO ROSE (Loomis 1937). Very close to true pink. Its larger flower and better color set a new standard in its color class. Much used in breeding for Sea Shell pinks. Good grower. 36 in.75
MME GAUDICHAU 40 in. Very fragrant. The ever-popular deep-purple bicolor. Hard to beat for mass effect.20
MME. LOUIS AREAU 36 in. S-lovely soft rosy-heliotrope on translucent silvery-white ground, F-exquisitely sanded and veined at the margins with the same deeper color, fading to a lighter center.40
MME. ULLMAN 36 in. A charming lavender blue with silvery reflex.60
MOUNT ROYAL 36 in. Royal blue. So fragrant that one blossom fills a room with fragrance.30
MULBERRY ROSE (S chr. 1941). A fine all round Iris in a new deeper, redder shade of pink, or as the name implies, a rosy mulberry. 40 in.	1.50
MUSICAL 32 in. Huge outstanding brilliant blue. Silver Medal winner.30
NANOOK 44 in. Creamy-white, with amber edges and orange veining at the throat.20

Every Item Priced To Save You Money

NARANJA (Mitchell). A clear rich, deep yellow with definite cast of orange on the falls. Blooms of good size and good form. Vigorous grower and generous producer of blooms. Late. 36 in.	.60
NENE 36 in. Huge flowers of heavy substance. The standards are soft blue and the falls old rose.	.30
NEON 48 in. One of the brightest flowers. S-pure bronze; F-rich velvety-carmine, with bright golden beard.	.30
NOWETA 32 in. A very pleasing and delicately ruffled flower of soft pink and yellow.	.40
NUMA ROUMESTAN 36 in. A very fine bright red Iris of French origin, beautifully frilled.	.40
OLA KALA (J. Sass 1943). Very deep rich yellow self of unusual form and fine branching habit. Standards are beautifully frilled and remain closed. Round falls of good substance nicely waved at edges. Vigorous grower, deep green foliage. An Iris of top ranking, certain to become immensely popular. 36 in. Late. 48-49 Dykes Medal Winner.	2.50
OREGON GIANT 42 in. Gigantic deep blackish-purple, with a heavy deep golden beard.	.20
ORDER OF THE PURPLE 44 in. A massive rich purple blend.	.30
ORMOHR (Klein, 1937). M. 40 in. AM A.I.S. 1940. Seedling of the famous Wm. Mohr. The color is lilac overcast with silver, with veining of violet.	.50
OREGON SUNSHINE 42 in. Huge flowers of smooth soft lemon yellow. One of the largest.	.75
OZIBWAY A large medium blue.	.20
PADISHAH 40 in. A very large amber yellow self on tall branching stems.	.50
PAULETTE 54 in. Tallest and one of the largest and finest light blues.	.30
PEARL PRINCESS 38 in. Indescribably beautiful soft Mother-of-Pearl tints throughout.	.85
PINK OPAL 48 in. One of our very choice soft pink tones.	.30
PINK JADU 34 in. The beautifully frilled white flowers are edged with violet.	.30
PINK SATIN 44 in. Tall, graceful stems with lovely pink flowers with a satin finish.	.35
PINK REFLECTION (P. Cook 1942). L. 36 in. A very lovely blend of pink and creamy gold that is a great favorite. The flowers are medium large with widely flaring falls. The branching is excellent. HM 1942, AM 1944. Per R. 89, 1944.	3.00
PLATINUM BEAUTY 36 in. Very soft pink and soft yellow pastel blend, with a sparkling silvery sheen.	.60
PLUIE D'OR 41 in. Deep clear tall yellow that is unsurpassed for landscape effect. Large flowers and a prodigious bloomer.	.30

Every Item Priced To Save You Money

POINSETTIA 38 in. Early. Huge dahlia-carmine bi-color with flaring falls measuring 7 in. from tip to tip.	1.00
PONGEE 40 in. A uniform soft buff with a frosty iridescence covering the entire flower.25
PORTLAND 45 in. Unusual and beautiful. S-frosty gold. F-coral rose.50
PRESIDENT LEBRUN 36 in. S-bright golden copper. F-velvety garnet. Gorgeous30
PRES. PILKINGTON 40 in. A gorgeous blending of many pastel tints, pink, brown, soft yellow, etc.20
PRAIRIE SUNSET (H. Sass 1939). This blend of apricot, gold, rose etc., would be outstanding in any garden, anywhere. Dykes Medal for 1943.	1.25
RAJAH beautiful topaz and pigeon-blood red.	2.50
RAMESES 42 in. A great vigorous, Dykes Medal Iris with golden buff and rosy pink flowers. Blooms very profusely.25
RED AMBER (Loomis, 1942). M. 38 in. A.M. A.I.S., 1943. An outstanding rose-pink flower whose standards of Jasper pink and falls slightly darker, are brightened by its gold beard and haft, with an undercast of copper	1.50
RANGITIKI (Stevens, 1941). M. 36 in. Among the finest of the splendid, rich purple Iris is found this lustrous carmine-purple self, enhanced by a glowing gold beard. Fine form and excellent substance.	4.00
REBELLION 36 in. A smooth velvety rich red tone.30
RED BONNET Dark red color, a gem.65
RED INDIAN Superb velvety red-toned, extra large and colorful variety. Excellent grower.	1.00
RED DOMINION Standards violet-red, falls rich velvety purple-red, nearly black. Large flowers. 40 in.30
RED VALOR (Nicholls, 1939). A superb big red that has been gaining popularity each season. A garnet red self with brown beard. It won the Roman Gold Medal in 1940, the HM of the A.I.S. in 1941 and the AM in 1943.	2.00
REFULGENCE 48 in. Fine Iris and should be in every garden. It is a prodigious bloomer. S-rich violet-blue; F-deep velvety violet-purple, with a magnificently veined throat.25
REGENCY ROSE (Stephenson 1942) ML. 36 in. Interesting and pleasing pinkish-rose to deep rose pink.40
RHADI . 36 in. An Iris of exceedingly attractive iridescent mother-of-pearl coloring. Large flowers of fine form.60
RHEINGAUPERLE 34 in. Early. Sweet orange-blossom fragrance. An unusual soft orchid-pink tone and very free flowering.40
ROSE ALLURE 30 in. Sea shell pink; F-Dahlia carmine with a narrow buff border. Unusual and attractive.	2.00

Every Item Priced To Save You Money

ROSE DOMINION (Con. 1931). HM A.I.S. 1932. A deep rosy bi-color with horizontal velvety falls. 27 in.30
ROSE GOLD (Milliken). An exceptionally bright blend of gold and rose with beautiful iridescent shadings. The flowers are of good size and substance. The plant a vigorous grower. 36 in.	5.00
ROSY WINGS (Gage 1935). 1939 Dykes Medal winner. Stunning blend of rose and copper. Mid-season. 33 in.40
ROYAL COACH 33 in. New. Bright yellow "Plicata" beautifully bordered and dotted brown. A real gem.40
RUBIENT (Whiting 1942). Medium size blooms in rich purple shades. Standards are very deep velvety blackishpurple. 30 in. Hardy and vigorous. Mid-season.	1.75
RUTH POLLOCH (H. P. Sass). Not large but very outstanding. The standards are a brown red, suffused and stippled deep yellow. Falls are clear yellow, heavily edged and dotted brown red. Mid-season. 28 in.	1.00
ROYAL RED 36 in. Huge flowers. A larger and redder Nene.65
ROYAL SPLENDOUR 34 in. New 1944. A superb velvety red. S-brilliant rose; F-carmine.	2.00
SABLE (Cook 1938). Very dark, blackish purplish so rich and lustrous it's almost in a class all by itself. It is all that a fine Iris should be, as luxurious as the name implies.	1.00
SACRAMENTO 40 in. A giant "Plicata". The ground is white heavily bordered with a feather-stitch edging of red-purple.40
SALAR (DeForest, 1940). Creamy flesh entirely dominated by an overlay of salmon. A difficult Iris to describe, but the color effect is that of salmon. Height over 3 feet HM, A.I.S. 1941.75
SALLY ANN (K. Smith 45). A lovely deep buff yellow self with orange beard. In vicinity of Jersey, Sally Ann blooms for nearly five weeks. Excellent substance. 42 in.	3.00
SANDIA (Williamson 1934). EM. 38 in. A sturdy medium pink, lightly blended, extra heavy substance. Delicate shadings of the various tints make the flower most appealing.40
SANDALWOOD (Hans Sass). A very fine coffee colored blend that is greatly enlivened by the yellow undertone. Mid-season.25
SAN FRANCISCO One of the largest white plicatas. Introduced many years ago and still ranks with the best in this class. Both standards and falls are distinctly edged blue. Blooms are large and well-spaced on tall stems. Mid-season. 40 in.40
SERENITE A very fine, perfectly formed flower of rich blue.20
SERENITY Soft orchid-pink similar to Pink Satin, but a little larger.35
SETTING SUN 36 in. Standards, frilled coppery red; falls, fiery crimson. Gorgeous.85

Every Item Priced To Save You Money

SHAH JEHAN 38 in. Creamy buff and lavender grey standards. The falls are a rich blending of fawn, copper, chestnut brown and purple.25
SHARKSKIN (G. Douglas 1942) M. If you can visualize the silken material known as Sharkskin, you will have a good idea of the firm substance and almost velvety finish of this lovely tall white Iris. The domed standards are very broad and have a strong midrib. The falls are arched and flaring with a pale glistening yellow flush deep in the throat. The flowers are large and well-proportioned. HC, A.I.S. 1941. HM, A.I.S. 1943. AM, A.I.S., 1946. Per R. 88 1946. 44 in.	2.50
SHINING WATERS 46 in. A lovely soft sky blue, with a sheen and sparkle like frost in the sunshine.40
SIEGFRIED 44 in. Yellow plicata with yellow standards and creamy falls dotted and stippled brown.40
SIR MICHAEL 8 in. S-clear heliotrope; F-rich red-purple suffused coppery brown.30
SITKA 48 in. Early. Very Fragrant, pure white.30
SNOW FLURRY 45 in. Ruffled standards of pure icy white. Broad, pure white falls, semi-flaring, waved and crimped at the edges. It is very early, long lasting and a very free bloomer.	1.25
SNOQUALMIE (Brhm, 1938). A solid deep cream; even in tone, large in size and of leathery texture. This is one of the best, hardy and free blooming	.60
SNOWKING (H. Sass, 1935). Regal in bearing with broad flaring, great white blossoms. lit with gold in the throat. Heavy substance. HM, A.I.S., 1936; AM, 1937.30
SO BIG TEXAS This lovely Iris is a soft lavender blue, strong grower, large well-formed blooms. It has good foliage and strong stems and the huge blooms are well placed. The standards are almost closed and falls are semi-flaring and slightly curved which gives the blooms an artistic appearance.	2.50
SOUTHERN PACIFIC (Taylor, 1942). A new giant clear blue on the lavender side. It is free blooming and one of the largest Iris we have ever seen. A descendent of Sierra Blue, similar in habit.	1.50
SOUV. DE LOETITIA MICHAUD 40 in. This is a very large and very soft blue of perfect form.30
SPINDRIFT (Loomis, 1944). Translucent, delicate seashell or coral-pink, with fiery tangerine beard to accentuate the color. This Iris achieved wide acclaim when shown as a seedling under the number TQ-70. Well-branched, with stiff willowy stems. HM, A.I.S., 1945.	3.00
SPUN GOLD (Glutzbeck, 1940). Perhaps the most famous yellow Iris ever introduced. It has all of the desired qualities of size, good branching, tall stems and rich solid yellow color. HM, A.I.S. 1939; AM, 1942. Dykes Medal, 1944.	1.50
STAINED GLASS (Wihelm, 1939). Glowing red-copper self, one of the most brilliant Iris we have ever seen when viewed with the sun behind it. In such a light, it resembles nothing quite so much as stained glass. Medium height. HM, A.I.S., 1940.65

Every Item Priced To Save You Money

STARDOM (Hall, 1941). Termmed onion-skin-pink by the color chart, this fine Iris is not really pink at all, but rather a smooth blend of coppery pink and apricot-buff. It has also been called salmon-rose. Beard is tangerine or brilliant orange. It is certain to please you. HM, A.I.S., 1940; AM 1943.	.75
STARLESS NIGHT (J. Sass 1941). M. 36 in. A very dark red-purple self. The color is pure and rich, its intensity heightened by a bright yellow beard. Flowers are of medium size, full-form and good substance. HM, 1943. Per. R. 88, 1943.	1.25
STATEN ISLAND (Kenneth Smith, 1948). 38 in. This unusually bright variegata has exceptional clarity of color. Its domed standards are bright old gold with a metalic sheen which gives life to the flowers. The very flaring falls, edged in the same color as the standards, have a jaunty carriage. The falls a rich velvety brown make this Iris a showy garden subject.	12.50
STELLA POLARIS (Smith, 1939). A very large and superior creamy white with almost velvety surface. Stems have 4-way branching and reach 42 in. in height. Stronggrowing, it makes a magnificent clump or a perfect exhibition spike. HM, A.I.S., 1939.85
SUNBURST 40 in. Large deep yellow of fine form and good texture.30
SUNOL 42 in. E. Handsome yellow of mammoth size, with lavender flush ..	.30
SUNMIST 35 in. V. E. A very lovely early soft yellow aristocrat25
SUNSET SERENADE (J. Sass, 1943). The finest of the Prairie Sunset seedlings. Its blooms are larger and somewhat lighter and brighter in tone than its parent. 36 in.	3.00
SUMMER TAN 38 in. E. Neither yellow nor brown, but a delightful "Summer-Tan" color.25
TALISMAN 38 in. Color of the world's most famous Talisman rose, a subtle blending of red, yellow, pink and chamois.40
TELEVISION BLUE A gorgeous vivid blue.60
THE ADMIRAL (D. Hall, 1941). AM, 1944; HM, A.I.S. A clean bright, medium blue self with a wonderful silky lustrous quality. The flower holds its color well, has a clean, unmarked haft and is of fine form and good substance. Free flowering. 37 in.85
THE BLACK DOUGLAS 38 in. Pansy-violet, but looks black. Very rich and velvety and good in every way.30
THE RED DOUGLAS 36 in. This is an unusually rich, velvety smooth flower of very large size and perfect form. A deep rosy wine-red with a brownish cast at the center and rich orange beard. There is a richness of color and finish that makes it most popular. Winner of the Dykes Medal in 1941.	1.00
THEOLINDA A lovely white Iris stitched in blue.35
THURATUS 34 in. A rich blackish prune-purple, with a velvety lustre that makes it superb.20

Every Item Priced To Save You Money

TIGER-TIGER (Warham). The bronzy standards and brownish-red falls produce a color combination that is both rich and satisfying. Blooms good size. 24 in.35
TIFFANY (H. Sass, 1938). This plicata is soft yellow heavily sprayed bronze-rose. Everybody's favorite.40
TINT O' TAN 40 in. A real bronzy tan. A perfect gem in every way.30
TIMAGAMI 36 in. Amazingly brilliant and beautiful copper-red flowers produced in greatest profusion.40
TOURNAMENT QUEEN (Milliken). A bright fuchsia-toned flower, firmly built and flaring, which spreads seven inches or more. The petals are separated and flexed enough so that portions of them are always highlighted. The broad styles of this flower are chartreuse with a fuchsia ridge down the middle. Very fragrant. A vigorous grower Early 36 in.	4.00
TREASURE ISLAND (Kleinsorge, 1937). A late bloomer of large perfectly formed, clear, clean, pure soft golden yellow. 40 in.40
TRUE DELIGHT 36 in. This is a perfect counterpart of True Charm, but while True Charm has the blue-toned feathered edge, the marking on True Delight takes on a bright pink tone.30
UKIAH 36 in. Rich, velvety flowers with Indian-red standards and velvety maroon falls. Gold veining.30
VALOR 50 in. A deep, rich, blackish blue violet; bright crimson in the sunlight.30
VELVET WONDER 36 in. Huge flowers, fine form, perfect branching and spacing. Very dark, but rich blackish red-purple.	2.00
VENUS DE MILO 44 in. It is a gigantic, pure snow white, a perfect flower in every way.30
VERT GALLANT 50 in Standards of soft rose; F-Dahlia-carmine, with a one-eighth inch border of soft rose to match the standards.40
VIEW HALO A bit different than the average Iris, brownish with grey blend.25
VIOLET CROWN 40 in. An exquisitely beautiful soft blue.60
VIOLET SYMPHONY 40 in. A stunning large violet self that ranks at the top of its color class. Very effective. AM 1943.	1.50
VOLTIGEUR 48 in. S. Bishops purple; F-flaring rich velvety deep mahogany red. Huge flowers.30
WABASH 38 in. Snowy white standards and purple falls with lighter margin. Large flowers on well-branched stalks. A Dykes Medal Winner.75
WAMBILISHA A crinkly-flowered white free flowering.30
WANTAGE 32 in. S-deep lavender blue; F-rich velvety purple. Very large flowers of fine form.25
WAR EAGLE 40 in. X-daphne pink; F-brilliant dahlia-carmine with a lustrous sheen.25

Every Item Priced To Save You Money

WASATCH 40 in. Glistening white, etched around the border with blue.30
WEST POINT (Nicholls, 1940). A very fine, large flowered bi-tone in rich shades of indigo-blue, the darker F. touched with brown at the haft. Good substance, nice finish, blooms late. 36 in.60
WHITE GODDESS (Nesmith, 1936). Nicely formed, large lightly ruffled, pure glistening white. 36 in.65
WHITE CITY (Murrell, 1939). EM 40 in. A fine large white Iris from England. Cool and stately, with a touch of blue at the throat. Dykes Medal, England, 1940. R. 88, 1943 by A.I.S.	1.25
WHITE SAMITE (Norton, 1943). E.M. 34 in. A virginal white, not large but with a charm that is distinguished. The flowers flare gracefully, the petals are heavily substanced.	1.25
WHITE SPLENDOUR A very fine tall free white flowering variety.30
WHITE WEDGEWOOD (Grant). Large porcelain white with blue at base of white beard. Blooms of good form and very smooth texture. Sturdy well-branched stems. Very pure and contrasting color combination. 30 in. Mid-season.	4.00
WM. CAREY JONES 30 in. Smooth, soft, clear ivory-colored flowers of perfect form. Nicely branched and a prodigious bloomer.30
WM. MOHR (Mohr) Very large round blooms on medium low stems scant foliage. Color is lilac, closely netted and veined deep violet. Should be planted in a warm, sunny, well-drained location. 20 in. Mid-season.35
WINNISHEIK An intense deep blue bi-color of fine form and smooth texture. The standards are somewhat lighter in color than the falls. Medium size. 30 in. Mid-season30
YELLOWITE 38 in. A great improvement on Elsa Sass, much larger, brighter and more contrast. S-bright yellow; F-white with a yellow border to match the standards.	5.00
ZUNI 40 in. Huge velvety flowers of rich glowing red-brown, suffused copper.35

IRIS TERMS

Standards—Arching or upper petals of an iris flower. **Falls**—Drooping, flaring or falling lower petals. **Haft**—Narrow portion of standard or fall joining main body of flower. **Venation**—Color markings usually found around haft. **Substance**—Petal quality or thickness. **Beard**—Short, hair-like growth, usually golden, beginning at haft and extending down petal.

Amoena—An iris with white or tinted standards and colored falls. **Bicolor**—Lighter standards and deeper falls. **Blend**—Colors combined or blended. **Plicata**—Darker stitched edging or margin color on lighter-toned falls. **Variegata**—Yellow toned standards, red, brown or purple toned falls.

Season of bloom is indicated by E, early; EM, early to midseason; M, midseason; L, late; VL, very late. American Iris Society awards are indicated by HM for Honorable Mention, AM, Award of Merit, and Dykes, for Dykes Medal Winner, the highest honor given annually to one variety only. (In case of tie vote, no award given.) The date directly following these designations indicates the year the award was given.

Every Item Priced To Save You Money

IRIS KAEMPFERI

These gorgeous beauties are the showiest of all Iris. Kaempferi Iris today give you a complete color range of the rainbow. The flowers are so huge, many measuring over ten inches across, some singles, semidoubles, mottled, striped, blended, soft pastel colors and other brilliant ones. Kaempferi Iris will start to flower from middle of June and will flower on into July when your garden actually can use some color. They are prodigious bloomers and hardy anywhere.

Cultural Directions:

Plant Kaempferi Iris very early in spring, then again after flowering, August to November; however, cover with a few inches of soil or straw for fall planting.

Location:

Kaempferi Iris require acid soil(sour soil). For excellent results they should be planted in the dampest part of your garden or along a pool, brook, or lake; however, can be grown in any location with a little extra watering. Kaempferi Iris will prove results the second year as it takes a year for them to establish.

Planting:

Kaempferi Iris should be planted about a foot apart preferably in damp ground. Water thoroughly for at least two weeks so that plants can establish themselves. Never add lime to any planting of Kaempferi Iris as they require acid or sour soil.

Feeding:

Never feed any plants until they have shown some new growth. Kaempferi Iris thrive best in a rich humus soil. They can be fed manures and fertilizers in limited amounts.

ALBATROSS. Lovely deep blue Iris with red stitching border, very stunning variety.	1.00
AOI NO WIE. Very large double light purple, excellent variety.75
BANGKOK. 40 in. Early. Huge single flowers of unusual uniform lavender-violet with a single area of deeper violet at the throat surrounding tiny orange spear points. Styles white, tipped lavender.75
BETTY F. HOMES. 42 in. Huge snow-white flowers of heavy waxlike texture, generally considered the best white.	1.00
BLUE BIRD. New beautiful self blue, white in center, very double, is in flower when other varieties are gone.	3.00
BLUE EAGLE. Very large double blue, white in center.75
CHAMELEON. White marbled and flamed blue. Very light and dark flowers on the same plant.	1.00
COLUMBIA. Double. Blue with pure white veins, yellow center; a striking variety.75
CONDOR. Large flat flower, round petals, red with gold center.75
COURT GOWN. 36 in. Magnificently brilliant rich red-purple flowers of unusual beauty.	1.00

Every Item Priced To Save You Money

DORIS CHILDS. Double flowers pearly white, deeply veined rosy plum. Center petals deep plum with white edges. Very striking variety.	1.00
EUMEE. 32 in. A very handsome single deep rich blue-purple self, of uniform color throughout.75
FASCINATION. A magnificent double soft blue flushed pink and veined white.	1.00
FLAMINGO. Deep rose, white in center. Very tall and profuse flowering. ...	1.00
GOLD BOUND. 34 in. Heavy firm leathery white petals that seem to be formed of wax.	1.00
ISO-NO-NAMI. (Waves at Seaside). Very large double late flowering soft blue with silvery veins.	1.25
KAEMPFERI SEEDLINGS. This group consists of many unusual and pretty shades of Iris in singles, semi-doubles and doubles. The almost unbelievable combination of colors represented in these flowers will be beyond your expectation.50 each; \$5.00 per Doz.
KAEMPFERI SPECIES. 40 in. This is one of the finest Iris I have for mass effect. Kaempferi is the original Species from which all of our modern named Kaempferi Iris sprang. I am offering an unusually fine, exceptionally tall, very free flowering strain, the deep red-purple flowers being more than double the size of the wild Kaempferi.50 each; \$5.00 per Doz.
KATHERINE HAVEMEYER. 42 in. Huge flowers of an exquisite shade of soft lavender. One of our fine Iris.	1.00
KOKI-NOIRO. Huge double to triple flowers of deep rich Royal Purple. ...	1.00
LA TOSCA. Immense, double white flowers with pale shadings. Very beautiful, strong growing variety. One of the choicest in this collection.	1.25
LAVENDER GIANT. Huge single flowers of glistening lavender-blue. Extremely free flowering; stems strong and tall.	1.00
LIGHT IN OPAL. 42 in. Huge size ruffled double flowers of gorgeous pink coloring with a soft blue halo.	1.50
LUCIE MARSHALL. 54 in. Gigantic double pansy-violet, with a white throat area and white veins.	1.00
MAHOGANY. 36 in. A very lovely double mahogany-red. One of the most beautiful of the Kaempferi Iris.	1.25
MATCHLESS. Beautiful double light blue Iris with a lovely pink border. ...	1.25
MOONLIGHT WAVES. Double white marked and flushed very pale blue. Heavy ruffed petals.	1.00
MONJI NO TAKI. Magnificent double purple Iris, very large.	1.00
MOTONABU. Lovely light blue single, very pretty variety.	1.00
MOUNT HOOD. Double. Light blue shaded darker, bright orange center.75
NISHIKI-YAMA (Meaning " Brocade Mountain")—The name alludes to the view of a mountain covered with Japanese Maple trees, giving a "brocade" effect. A large double white flower, with a "plicated" edge of solid red-purple, from there fading into the white center.	1.50

Every Item Priced To Save You Money

PRIAM. Very large, single snow white, with a soft flush of lavender and a greenish-yellow throat.	1.00
PRINCESS HOLLYHOCK. 42 in. Vividly brilliant and effective. Pale Wistaria-violet, with vivid prune-purple veins.75
PURPLE GIANT. Massive single purple Iris with gold and cream center. A real beauty.75
PYRAMID. 32 in. A magnificent large double to triple deep blue-purple, with white styles and conspicuous yellow throat markings in strong contrast	1.00
RED BIRD. Very deep red and very double, with large tufted center. One of the finest. Blossoms the same time as Blue Bird.	3.00
RED CLOUD. Unusual red, white and yellow in center. One of the latest in bloom.	1.00
RED EMPEROR. Very early and very large, deep red.	1.00
RED RIDING HOOD. An extra fine amaranth-red, veined white.75
RED TRIUMPHATOR. Double deep red, white tufted center. Very large and tall.	1.50
ROSE ANNA. Huge double flowers; light mauve, deeply and heavily veined with purple. Stigmas short, yellow center, quite brilliant and clearly defined.	1.25
ROSALIND. Pure rosy mauve reminds one of the foam on top of a strawberry soda. Beautiful outstanding color.	2.00
SEA CREST. 46 in. Double frilled white, faintly flushed very soft lavender, with lavender crests.	1.25
SHADOW. Single. Self-color, reddish purple. Very large fine blossoms that are brilliant and outstanding.	1.00
TEMPLETON. Double. Reddish violet mottled and marbled with white; of exceedingly fine form.	1.25
VIOLET HERRINGTON. 40 in. Large handsome double flowers of Bradley's violet with white veins and tufted center.	1.25
WAVING WATERS. Double light blue marked and flushed white, heavy ruffled petals. Double very large petals.	1.25
WHITE SWAN. Pure white, very free and tall.	1.00

or make check to the American Iris Society and send to us with your order and we will take care of it for you.

Every Item Priced To Save You Money

BEARDLESS IRIS SPECIES

AZURE DAWN (Nies).	A blue-lavender Spuria of uniform coloring except for a pale yellow patch on the falls. The smoothness of the coloring is particularly pleasing.	4½ feet.	\$2.00 each
CAROLINA	A beardless Iris. Excellent red and blue. Very fine.	.35 - 12 for \$3.50	
DUTCH DEFIANCE (Nies).	A very large, bold, hardy flower that has attracted much favorable attention. Splendid in form, finish and substance, its charm is enhanced by a yellow signal patch on the frilled falls. This will become very popular.	36 in.	\$7.50 each
FIFTH SYMPHONY (Nies).	Here we have something exceptional. A golden brown veining is loosely threaded on a background of deep yellow giving an almost orange effect. The falls are frilled and spreading. Very fine.	3 feet.	\$2.50 each
GOLD NUGGET .	36 in. Best of the golden yellow cut-flower varieties. Much like Dutch Iris but better.		.75 each
LARK SONG (Nies).	Considered by many the loveliest Spuria. The entire flower is heavily frilled. The falls, nearly horizontal, are a full, rich yellow, the standard and style branches nearly white. The flowers are large and well spaced on tall stems. Highly commended, American Iris Society. Stock very limited.		\$10.00 each
MICHIGAN STATE (Nies).	A huge bronze flower of a beautiful round form. A loose veining over both standards and falls produces the light bronze effect.	40 in.	\$3.00 each
NOTHA .	36 in. A very lovely soft lavender flower of fine form. Excellent cut-flower variety.		.75 each
OCHROLEUCA .	Will grow 5 feet high in a moist location. Standards, pure white; falls, yellow with a quarter-inch margin of white. Very fine.		.75 each
PASTORAL (Nies).	A corsage flower. The flaring falls are orange yellow, edged with pale lavender while the erect standards are yellow changing to lavender. The light lavender styles with their deep lavender crests add a finishing touch which gives just the right accent to the center of this beautiful flower. In form, substance and finish, the flower is superior.	32 in. Stock is very limited.	\$5.00 each
PSEUDACORUS .	36 to 48 in. Rich yellow. Hardy anywhere, but prefers a damp spot. Excellent for the water garden or for naturalizing and just as fine in the home garden.		.35 each, \$3.50 per Doz.
PSEUDACORUS GIGANTEA .	36 in. A blue giant-flowered form of Pseudacorus.		.75 each
PSEUDACORUS IMMACULATA .	36 in. A pure clear deep yellow without any of the Pseudacorus throat markings.		.75 each
PSEUDACORUS SULPHUREA .	36 in. A light sulphur-yellow form of Pseudacorus.		.75 each
PSEUDACARUS VARIEGATA .	36 in. Yellow flowers with yellow and white variegated foliage in the spring. Very rare.		.75 each
RUSSET FLAME (Nies).	A vigorous, free flowering Spuria of rich russet coloring which makes it especially useful as a cut flower. The under-color is deep yellow the falls being heavily bordered with dark brown while the standards are washed to a brownish yellow. Heavy substance and good keeping quality make it valuable to florists and home gardeners.	3½ feet.	\$3.00 each
SHREVEI ALBA .	36 in. Fragrant, a very lovely frilled white-bordered soft blue		.75 each
WADI ZEM ZEM (Milliken).	A clear cream-colored Spuria, remarkably large in size and of excellent shape. The rounded spreading falls are two inches or more in width, the standards are erect and open. Height 4 feet. Stock is limited.		\$2.50 each

SIBERIAN IRIS

Siberian Iris are the heaviest producers of flowers of all Iris. They are very useful as cut flowers, many single plants produce upwards of fifty flowers.

Siberian Iris are different from other Iris. They have a very grassy foliage, tubular flowering stems and somewhat smaller flowers. Select a spot in your garden for our lovely collection of Siberian Iris. They will fill in with beauty and are the easiest of all Iris to grow in either full sunlight or semi-shade, also very hardy.

Cultural directions same as Kaempferi Iris.

Planting instructions accompany all shipments.

SELECT YOUR VARIETIES 50 CTS. EACH, \$4.50 PER DZ. WITH THE EXCEPTION OF RED EMPEROR AND TYCOON.

BLUE STAR. 29 in. Exquisite flowers with rich violet standards and clear soft lavender falls.

BOB WHITE. 38 in. Waxy snow-white, lemon-yellow throat.

BUTTERFLY. 36 in. Soft blue, gracefully poised like a butterfly.

CAESAR. 30 in. Rich royal purple of exceptional brilliance.

DRAGONFLY. 58 in. Fine uniform bluish violet, shoulder high.

DUCHESS OF YORK. 36 in. Exceptionally fine massive flowers of deep rich blue.

EMPEROR. (Improved Strain.) 48 in. Rich violet-blue.

GAYHEART. 32 in. Beautiful new dark blue self.

GEORGE WALLACE. 46 in. Earliest of all. Lovely blue tone.

LADY NORTH CLIFF. 38 in. Stylish looking rich bright violet.

LLEWELLYN. 42 in. A superlatively beautiful uniform soft blue.

MRS. GRAY HILL. 32 in. A very early rich deep blue, with flaring

NATICK. 38 in. Large beautiful sky-blue.

NORA DISTIN. 30 in. Strikingly beautiful blue and white.

PAPILLON. 50 in. Tallest soft blue. Very lovely.

PEGGY PERRY. 32 in. Early. Ruffled rich blue.

PERIWINKLE. 40 in. Rich, deep violet-blue; one of the largest and best. Originally sold at \$10.00 a plant.

PERRY BLUE. 48 in. One of the most popular of the Siberian Iris, and justly so, in a beautiful shade of clear sky-blue.

RED EMPEROR. 30 in. Handsome wine-red, shaded and veined a deeper tone. In a color class by itself. **\$1.50 each**

SKYLARK. 40 in. An exquisitely soft blue of superb form.

SKYROCKET. 38 in. Delightful violet-blue of perfect form.

SNOW QUEEN. 38 in. The largest of the Siberian Iris, with perfect snow-white flowers of firm waxlike texture.

SUMMER SKY. 30 in. Entirely new and different in a very delicate soft blue and white combination.

SUNNYBROOK. 36 in. An exquisite shade of soft Alice-blue.

TRUE BLUE. 36 in. Magnificent true blue flowers.

TYCOON (Cleveland). A new winner with the largest violet-blue flowers of any Siberian Iris. A clump of it will make a fine accent point in any garden. 3 feet. Illustrated in color. **\$4.00 each**

WHITE EMPRESS. 36 in. A fine new sparkling white.

AUTUMN FLOWERING IRIS

FLOWER TWO OR MORE TIMES EACH YEAR

These Double Duty Iris not only blossom in the Spring, along with other early flowering varieties but they flower again profusely in the Autumn, beginning in September and continuing until killed by heavy frost.

AUTUMN ELF. 18 in. A dainty color in the Autumn-Flowering Iris, with ruffled standards of cream and with flaring falls of soft lilac, with deeper veins at the throat. The first to bloom in the fall.15 each; 12 for \$1.50

AUTUMN FROST. 36 in. Very sweet fragrance. The tallest of the autumn-flowering varieties. Very large beautifully poised flowers of perfect form, waxlike substance and alabaster whiteness25 each; 12 for \$2.00

AUTUMN HAZE. 30 in. Violet fragrance. The standards are light lavender-violet and the falls are hyssop-violet, shading to manganese-violet at the center.15 each; 12 for \$1.50

AUTUMN KING. A very lovely rich purplish blue variety, very fine flower25 each; 12 for \$2.00

BLACK MAGIC. 28 in. profuse bloomer. Each plant producing from 3 to 6 stalks. It also flowers just as profusely in early spring. The color is an intense deep blue-violet, with a rich velvety luster and a black sheen.15 each; 12 for \$1.50

ELEANOR ROOSEVELT. 26 in. A profuse bloomer twice a year. Almost identical in color with "Black Magic", which however, flowers earlier and even more profusely.15 each; 12 for \$1.50

FROSTY QUEEN A lovely frosty free flowering white25 each; 12 for \$2.00

LIEUT. CHAVAGNAC. 15 in. An everblooming fragrant brilliant violet-colored variety.25 each; 12 for \$2.00

OCT. BLAZE Red tone Iris similar to Dauntless25 each; 12 for \$2.00

OLIVE WHITE. 18 in. A very lovely creamy-white variety, with attractive green-gold veining at the throat.25 each; 12 for \$2.00

SANGREAL. 28 in. A remarkably fine deep yellow with a deep orange beard. An improvement in the yellow fall bloomers.15 each; 12 for \$1.50

SOUTHLAND. 24 in. 1939. A deep golden yellow variety, with large flowers of fine form and heavy substance.15 each; 12 for \$1.50

ULTRA. 18 in. The unusual brilliant color of this Iris would make it valuable even if it flowered only in the spring, but it is a profuse bloomer twice a year.25 each; 12 for \$2.00

WHITE AUTUMN KING. 30 in. A magnificent glistening snowy white of robust growth. A prodigious bloomer, a large flower of perfect form and heavy waxlike substance.25 each; 12 for \$2.00

Can be Planted From
March Until November

HEMEROCALLIS DAYLILIES

Will Grow Successfully in
Any Part of our Nation

ENTIRELY NEW COLORS IN HYBRID HEMEROCALLIS

There are additional new creations of colors as though an artist with a pallet had painted them for Nature. In our listing we are offering Daylilies in Lemon-Yellows, Cinnamons, Coral-Fawns, Salmons, Rosy Salmons, Peach, Peach-Browns, Rosy Pinks, Old Rose, Rosy Red, Light Red, Cherry-Reds, Velvety Reds and Purples, many having unusual throat combinations and star-shaped bases.

LOCATION, PLANTING AND CARE OF DAYLILIES

Any location, whether exposed to full sun or part shade, will grow Daylilies satisfactorily. Soil can either be acid or alkaline, sandy loam or clay.

Daylilies can be planted any time from March until November. The plants are very rugged, can stand any amount of neglect and are also extremely hardy. They are like Peonies, you have very few flowers the first year, however once established, they will bloom profusely, many producing hundreds of flowers per season. These Lilies can remain in the same location for years.

Daylilies respond to feeding of rotted cow manure, bone meal is also excellent. They are surprisingly free from diseases and insect pests.

The Daylily is by far the most conventional plant for your garden, regardless of your location; whether they are planted where the temperature goes to 40 degrees below or one of the hottest, driest locations in our country, or along your pool, brook or lake, these plants will lavishly produce flowers in abundance. If proper varieties are selected, you will have Daylily blooms from May until frost.

WE ARE LISTING 34 VARIETIES OF DAY LILIES WHICH WERE PURCHASED OUTRIGHT FROM MR. RUSSELL. THESE WE RE-NAMED. HOWEVER, WE HAVE BEEN ADVISED TO USE THE ORIGINAL NAMES, THEREFORE WE ARE LISTING THEM UNDER BOTH NAMES TO AVOID DUPLICATE PURCHASES.

HEMEROCALLIS — DAYLILIES

AMARYLLIS	46 in. Fragrant golden orange. Flower 6 in. July, Aug.50
ANGELINA — PEAR BLOW (Russell).	Peach-brown wide sepals; sepals buff, narrow red-cinnamon eye zone. Chrome throat. Bloom 4½ inches; high 3 ft. May and June	1.00
ANNIS VICTORIA RUSSELL	Huge, 7 to 9 in. Golden yellow. Profuse bloomer	2.00
AUREOLE	36 in. Early brilliant orange-yellow. May and June.35
AURORA-ELEANOR (Russell).	Two tone. Sepals a pure lemon. Petals, wide and ruffled, fully and generously sprinkled a rosy pink, faint darker red zone. Throat, green. Petals and sepals ruffled and recurved. This is a real "must have". 5 inch bloom; height 2½ ft. May and June.	1.00
AUTUMN RED (Nesmith 1941).	A velvety red with a long season of bloom. An open semi-flaring flower with petals of Vandyke-red flushed with Nopal red. The sepals have the same colors with a lighter line at the midrib. 15 to 20 flowers on well-branched stalks. 39 in. Aug. and Sept.	2.50

Every Item Priced To Save You Money

BAGDAD 42 in. Combination orange, red, yellow and brown, June and July.	.75
BANDANA (Nesmith 1945). Gay and brilliant as a brightly colored kerchief, the rich tomato-red and orange-yellow tones are so skillfully blended that it is one of the most colorful hemerocallis in the garden. The tomato-red petals have a narrow fluting at the edge. The sepals are a smooth even-blending of the colors. Tall with many flowers and good branching. 40 inches. Aug.	5.00
BAY STATE 42 in. Clear smooth yellow, perfectly formed flowers. July and Aug.35
BEACONLIGHT (Wayman). 48 in. Brazil red with a citron yellow throat.	3.50
BITTER SWEET (Nesmith). Most refreshing are these bright flowers of bitter-sweet orange flushed with coral-red. The flower stalks remind one of the brilliant sprays of our American bittersweet. 38 in. July and Aug.	3.50
BLACK CHERRY Rich unfading black-red that stands out. Medium size flowers beautifully formed, recurving petals and sepals. 35 in. July.	5.00
BLACK PRINCE (Russell). Deep blackish red, very rich and impressive. Small cup of deep yellow. Wide segments. 5 inch bloom opens full	3.00
BOLD VENTURE — CENTENNIAL (Russell). Cherry-red, open medium wide, flary petals twisted, sepals recurved. Deep red, wide eye zone. Orange throat. Bloom 5 in. Height 3½ ft.	1.50
BOUTONNIERE 36 in. Small clear yellow petals recurving, rosy peach. Aug. and Sept.85
BRIGARID (Nesmith). A big flower with a distinctive pattern of rose and mahogany on the large full blooms. The flowers have broad recurving petals and sepals, with a cream midrib on the petal, and a halo of deep rose in the throat. The flowering stalks are tall with 25 or more blooms on well-branched stalks. 43 in. July and Aug.	5.00
BRONZETTA 56 in. (Wayman). Huge flowers of brilliant bronze or coppery-red, close to flame color.	3.00
BURBANK 44 in. Lemon-yellow, originated by Luther Burbank. June and July.50
BYING OF VIMY Large pale orange rose with slender curling segments, yellow throat. 48 in. July.	1.50
CALYPSO 36 in. Clear lemon-yellow. July and August.35
CAMPUS QUEEN — FRANCES (Russell). Salmon-red, deep red eye zone. Greenish yellow throat; ruffled petals. Medium wide, 5 in. bloom. Height 2½ ft. May and June.	1.00
CANARI (Nesmith 1940). Large satiny finished flowers of palest canary yellow. The blooms resemble sprays of cream-colored lilies with as many as twenty buds on one stalk. An excellent branching variety. 4 ft. June and July.	5.00
CAPRICE (Wayman). Orange buff overlaid Bordeaux. July.	3.00

Every Item Priced To Save You Money

CHEERLEADER — SYMPHONY (Russell). A 4-inch wide ruffled petal. Sepals recurved. The daintiest shade of canary-yellow with a faint red eye zone. Keeps perfectly. A semi-dwarf. Height 2½ ft. May and June.	1.00
CHENGTU Coppery orange-red with velvet carmine mid-zone. Recurved 4½ in. flowers. Most attractive and unusual hemerocallis.	1.00
CINNABAR 36 in. Large delicate and unusual shade of brownish red. July and August.	.40
CISSY GUISEMPI 3 ft. Dark coppery rose-red, almost ox-blood red, with a yellow bar down the center of each petal. July and Aug.	.25 each; 12 for \$2.50
CLAUDIA — BURMA (Russell). Rosy brown petals, deep rose eye zone; sepals yellow over cast rose. Yellow throat. Keeps well. A "honey". Wide 5 in. bloom. Height 2½ ft. May and June	1.00
COQUETTE — REMBRANDT (Russell). Rose-red petals; ruffled, deep rich red eye; orange throat; semi-flare. Very good. 5 in. bloom. Height 3 ft. May	1.00
CRESSIDA 36 in. Magnificent deep orange with red star at the throat. July and Aug.	.30
CRITIC — ESTHER (Russell) Cinnamon-red. Petals cinnamon-red and ruffled. Sepals and throat rich chrome. Deeper eye zone. Medium wide petals. Bloom 6 in. Height 3½ ft. May.	1.50
CROWN OF GOLD 48 in. Clear bright medium yellow.	.75
DARK HORSE (Wayman). Pure mauve self.	3.00
DAUNTLESS 36 in. Pastel canary-yellow, greenish yellow throat.	.75
DAWN 38 in. English introduction. Coppery-pink with canary yellow throat. July and August.	.75
DELINAH — MAXINE (Russell). Rose sepals and petals. Ruffled petals, sepals recurved. Orange throat star-shaped; deep old rose eye zone. Keeps well. Height 3 ft. 5 in. bloom	1.50
DONALD WYMAN 44 in. 6-inch golden yellow flower, bright red spot on each petal. July and August.	.35
DUMORTIERI 18 in. Lovely rich cadmium-yellow. May and June.	.35
DUO BLOOM 50 in. Deep yellow-red striped throat. June and July.	.35
EGYPT 43 in. Rich deep bright maroon. Huge 6-inch flower. July.	4.00
ELEGANCE 43 in. Coppery-red with brilliant orange throat.	3.00
ELIZABETH PIKE Deep soft rose, flushed bronze with pale yellow mid-rib. 30 in. July and August.	.75
ESTHER FLORENCE (Herr). An exceptionally free flowering, medium-size yellow. This variety is by far the freest flowering variety in our entire group. Second year plants will produce hundreds of flowers.	3.00
ESTHMERE 36 in. Apricot-yellow, reverse orange-brown.	.35

Every Item Priced To Save You Money

FAIRY FLAME — FLAMING SPLENDOR (Russell). Petals cherry-red; sepals buff, yellow deeply overcast red. Deep golden throat; ruffled petals. A most profuse little "honey". 3½ in. bloom; opens full. Height 2 ft. May	1.50
FAIRY JEWELL (Nesmith 1947). The tallest and latest flowering pink that I have seen. The full open blooms are between Azalea and shrimp pink. A self with very fine substance, the color is smooth and extends to the center of the flower. An added attraction is the splendid branching up and down the very tall stalk and when established, many of the branched re-branch. 46 in. Aug. and Sept.	10.00
FELICITY (Nesmith 1947). The very large full, firm textured flowers of light Aureolin yellow are cup-shaped with petals and sepals incurving at the ruffled edge. The very sturdy well-branched stalks have 35 to 40 flowers and it has the longest season of bloom of any hemerocallis that I know. 40 in. July to Sept.	6.00
FIREFLAME (Wayman). Pure flame scarlet with a Barzil-red star and lemon chrome throat. July.	6.00
FLAMID 36 in. Orange-yellow; Bronze outside. July.40
FLOATING STARS — BRIGHT LIGHTS (Russell). Light red petals and sepals; deeper eye zone, chrome throat. Bloom 6 in.; height 2½ ft. Many and June.	2.00
FLORIAN 40 in. Good deep yellow. Petals crimped. July and August.40
FULVA 54 in. Brownish red at center, lighter shade towards the edge. July .25 each; 12 for \$2.50	\$2.50
FULVA MACULATA 4 ft. July to Aug. Very large bold flowers, similar in color to the common "Roadside Lily" but much larger and later.35
FULVA ROSEA The most beautiful of any known species of hemerocallis. The flowers are lustrous rose pink and are born on tall graceful stalks. 3½ ft. July and Aug.	3.00
GAY DAY (Nesmith). 48 in. Bright canary yellow self. July and August	1.25
GARDEN PRINCE — MY DELIGHT (Russell). Cherry-red, profuse. Orange throat. Keeps well. Small. Bloom 3 in. Height 3 ft. May and June.	1.50
GEO YIELD 36 in. Huge 6 in. Canary-yellow flower bushed red; deeper throat. July and August.40
GLADIATOR (Wayman) Huge flowers of Morocco to Brazil red. July.	3.00
GLONANA Rich, clear, pure deep yellow. July and Aug.50
GOLD DUSK Small gold variety with orange midrib20
GOLD DUST 30 in. Fine deep orange. May and June.25 each; 12 for \$2.50	\$2.50
GOLDENI Large very deep orange.40
GOLDEN DREAM (Betscher) 46 in. Deep yellow. Very free flowering. July.75
GOLD IMPERIAL (Perry). 50 in. Rich uniform canary yellow. June and July.	1.00

Every Item Priced To Save You Money

GODOLIER — JEAN (Russell). Rich vivid velvety red. Wide petals. Deepest orange throat, deeper eye zone. Chrome midrib in petals and sepals. 6 in bloom; height 3 ft. May and June.	2.50
GRACILLIS 18 in. Dainty lemon-yellow miniature. May and June.75
GYPSY 42 in. Deep orange, slight red shadings.35
HANKOW 42 in. Orange-chrome. July to October.	1.25
HARVEST MOON 36 in. Clear orange sherbet, free flowering.35
HEMO No. 5 35 in. Huge deep orange, star-shaped flowers. July and August	.35
HEMO No. 101 56 in. Heavy flowering, deep golden yellow.25
HERMES 45 in. Clear rich canary-yellow, July.50
HONEY RED HEAD (Nesmith 1942). A very brilliant and unusual combination of colors that is praised by hemerocallis judges. The flowers are open and flaring of velvety, yet bright red with a distinct border of creamy yellow. Medium height and good branching. 38 in. July and Aug.	4.00
HYPERION 48 in. Large waxy canary-yellow. Fragrant.75
HYBRID HEMEROCALLIS SEEDLINGS A fine lot of reds, yellows, salmon, and pinks mixed.35 each; 12 for \$3.50
IMPERATOR 40 in. 6 to 7 in. flower; rich orange-red. Yellow star at throat. English Hybrid.40
IMPERIAL 50 in. Salmon-orange with Morocco-red star	2.00
IRIS PERRY 40 in Brilliant deep orange. July to September.75
JOYMAKER — RED FLAME (Russell). Fiery red, orange throat, fully opened medium wide, petals ruffled. A honey of a dwarf. Bloom 4 in.; height 18 in. May and June.	2.50
JUNE BOSSIER English introduction, brilliant shade of rich bronze orange with a pale crimson zone and sulphur yellow throat. July and Aug. 48 inches.	3.00
KILLARNEY LASS (Nesmith 1944). Captivating and charming, this flaring pink gives a very bright pink effect in the garden and is delightful for flower arrangements. The center of the petals is bright geranium (pink Ridgway). Completely bordered by soft flesh pink, the sepals are flesh pink, lightly flushed with a deeper tone. The darker pink of the petals is just about the shade of the old time Pink Killarney Rose. A very lovely hemerocallis. 40 in. Aug.	8.00
KWANSO FLORE-PLENO 48 in. Attractive double orange-copper.30
LEMON KING 48 in. Soft waxy yellow with twisted petals.35
LUSTROUS (Nesmith 1942). In color, these lovely flowers remind me of the cheery Clusiana tulips. It is a large flower with bright pink color over-flushed with a soft lustrous sheen. Tall and well-branched with many flowers on each stalk. 40 in. July and Aug.	5.00
MARCUS 48 in. Large deep yellow with faint bronze overlay50

Every Item Priced To Save You Money

MARGARET PERRY 50 in. Cornelian-red with yellow star at throat50
MAROON MARVEL Red with stripes of light yellow through the midrib. . .	.65
MARY STOKER 42 in. Unusual two-tone hybrid. July and Aug.50
MARY GUNTHER — (Russell). Real contrast in bi-color. Petals a striking velvet carmine red, sepals a clear yellow. A "must have". 3 ft. April, May and June.	2.50
MASQUERADE (Wayman). Maroon to English red with orange undertone. 6 in. flowers. 31 in. July.	3.00
MASTERPIECE (Wayman). Large Vandyke red measuring 6 to 7 in. July ..	3.00
MELBA A coppery-red variety, possessing a very fine flower. An excellent bloomer.	1.25
MINUET (Nesmith 1941). Subtle blend of frosty pink shadowed deeper rose on the petals and sepals, giving a rosy pink effect in the garden. The flower are of Fulva rosea form, but larger and the scapes are better branched with many flowers, thus giving a long season of bloom. 40 inches. Aug.	4.00
MISSION BELLS (Hall 1945). Large wide petaled, ruffled flower of clear medium yellow producing up to 52 flowers to a stalk on established plants. A fine variety that is a strong grower and a free bloomer. July and Aug.	4.00
MRS. J. R. MANN Larger and taller than Amaryllis, producing more flowers from the massive plant, thus making a striking display in your garden. June and July.	1.50
MRS. W. H. WYMAN 42 in. Free flowering, soft yellow. Juy and August. . .	.35
MULLERI 48 in English variety, producing masses of yellow flowers.35
MY IDEA — CORAL SEA (Russell). Coral-fawn. Coral petals, heavily veined, deeper coral sepals. Very narrow, deep coral eye zone with a yellow distinct star-shaped throat. Petals ruffled, sepals reflexed. Keeps well. 4 in. flower; height 3½ ft.	1.50
MYSTIC MOON Medium shade of red. A variety that is very appealing. . .	.30
MELROSE — SALMON SUPREME (Russell). Salmon new bloom opens in evening before old flower closes, making this a fine day and night bloomer. Only a small 3½ in. bloom, but how profuse and what a color! Gold sepals, salmon petals with deep rose eye zone. Yellow throat shading to green. Height 3½ ft. May and June.	1.00
MERRYLAND — BOBBY (Russell). Cherry-red, open medium wide, flary petals twisted, sepals recurved. Deep red, wide eye zone. Orange throat. Bloom 5 in. Height 3½ ft.	2.50

Annual dues are three dollars (\$3.00) and should be mailed to the Secretary-treasurer, Pearl Sherwood ,Atlantic, Iowa.

CULTURAL DIRECTIONS

PLANTING AND CARING FOR BEARDED IRIS

TIME OF PLANTING OF BEARDED IRIS.

Bearded Iris can be planted any time after July 10th up until the middle of October; however, you can plant up until frost, providing you mulch them with some straw to prevent them from winter-killing.

LOCATION FOR BEARDED IRIS.

Bearded Iris will do well in any part of our country except through the extreme South; however, they can stand 35 degrees below zero without suffering any damage.

TYPE OF SOIL FOR BEARDED IRIS.

Iris require sweet (alkaline) well drained soil free from roots or any rotted material. Never use rich soil nor manure. An application of lime before planting is very important; if your soil does not drain well, raise your beds 6 to 12 inches above the balance of your ground which will do wonders for Iris plantings. Bone meal is an excellent fertilizer, wood ashes may also be used freely.

PLANTING BEARDED IRIS.

Bear in mind when planting Bearded Iris to see that they are planted in a sunny spot. Rhizomes must be planted to the surface. If water is available a good soaking afterward is good. Plants properly planted will produce many more blooms, also it will help to avoid root rot and diseases. Keep soil cultivated.

DISTANCE BETWEEN PLANTS.

Plant about 1 ft. to 2 ft. apart depending on how frequently the clumps will be divided. If left in the same location three or four years avoid close planting. The increase in size of clumps will cause crowding for available moisture and plant food.

PESTS AND DISEASES.

Snails and slugs are the most common pests found on bearded Iris. They can easily be taken care of by keeping the dead leaves and trash from around the Iris plants. If still troubled, purchase some good snail poison now on the market which will remedy these pests.

LEAF SPOT.

A fungus disease which sometimes develops on Iris leaves and causes the ends to turn brown. These spores multiply and spread rapidly during damp weather. To check this fungus, spray with a lime-sulphur spray to which add a little soap as a spreader.

RHIZOME ROT.

This is caused by lack of drainage or too much rain followed by real warm weather, very seldom turns out to be dangerous. Rotted parts generally are infested with white maggots.

CURE FOR RHIZOME ROT.

Scrape away soil, cut away rotted parts, then dust with sulphur or charcoal, expose cleaned rhizomes to direct sun leaving roots lay for several days so that the roots are thoroughly dry. Replant rhizomes so that the tops are exposed to the sun at all times.

IRIS BOPER.

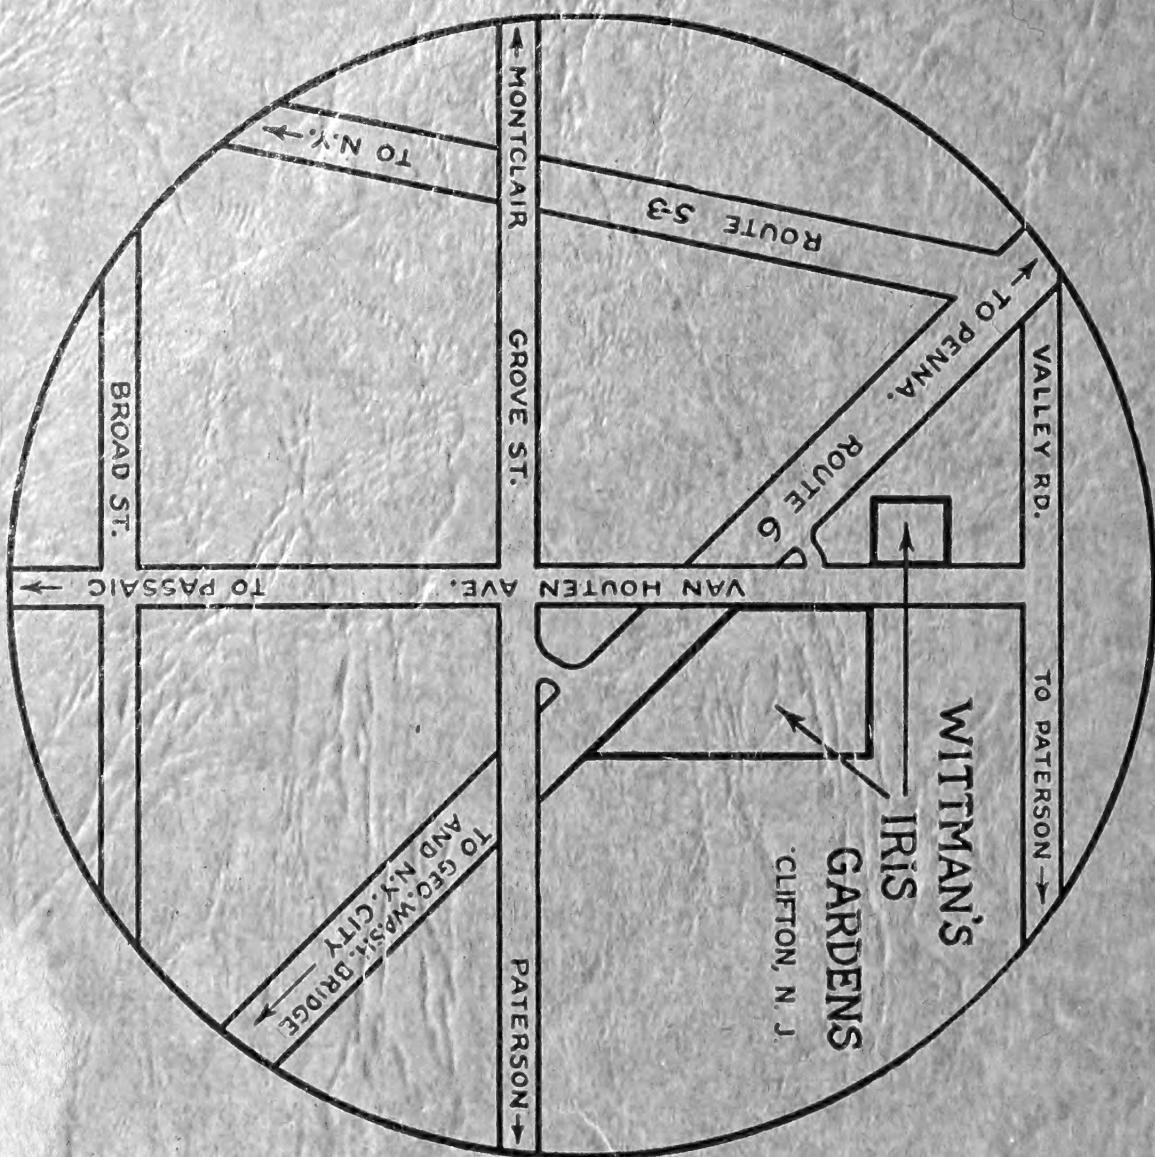

Develops from a moth which lays its eggs in the fall near or on the basal leaves, eggs hatching out in spring. The young larvae eat their way through the foliage down towards the rhizomes. Early stages can be noticed by bleeding of plants, later leaves become stunted. In July or August the larvae will reach maturity, being about an inch and a half long, whitish with a pronounced pinkish tinge above the spiracles. Pupation takes place in the soil near base of plant late summer. The Pupa is shining chestnut-brown in color.

IRIS BORER CONTROL.

Important to keep your garden free of any rotted foliage or roots. In small gardens many plants can be saved by the method of handpicking. A solution of Potassium Permanganate (which can be obtained at any drug store) using as much as can be held on top of a dime in a gallon of water. Cut foliage of Iris, then dip plant in above solution for twenty minutes. If badly infected dip again in 48 hours, let rhizomes dry thoroughly before replanting. You may also dilute one level teaspoonful in two gallons of water, pouring contents over plants and around roots which will help to eliminate further borer conditions.
